Career Objective

To work in the web development sector of different local & multinational software companies and grow rapidly with increasing responsibilities.

Projects Done So Far

1 . Shikkhok [Online Learning Website]

- Admin can modify the courses, add or remove other admins
- User can purchase courses, see purchase history, log in with google, give reviews
- All the courses, instructors, feedbacks are dynamically shown
- Web Technologies used are React, Firebase, Heroku, MongoDB
- [Live Website](#) | [Frontend Code](#) | [Backend Code](#)

2 . Civic Shifter [Online Ride Sharing Website]

- Logged in users can choose their preferred vehicle type then choose their starting point and destination then they will be showing the vehicles for the ride
- Map implementation is also done here
- Users can log in and also create new accounts and the site only works for valid users
- Web Technologies used are React, Firebase, Netlify
- [Live Website](#) | [Code](#)

3 . Fancy Slider [Online Image Loader Website]

- This is a responsive website that shows images from pixabay API
- The user will give input in the search box and all the relevant images for that keyword will be shown
- Also shows the like and view count for every image
- Web Technologies used are React, API, Github
- [Live Website](#) | [Code](#)

Experience

Introduced to Web Development at [Programming Hero](#) [Jan 2021 ~ Present]

- Built Responsive & Functional Websites
- Completed All 11 Assignments
- Completed more than 5 full websites and many projects

Educational Qualification

- Studying B.Sc in CSE from Military Institute of Science & Technology
Completing 3rd year [Jan 2019 ~ Present]
Current CGPA 3.30
- Passed H.S.C from Mirpur Cant. Public School & College in 2018
- Passed S.S.C from Monipur High School & College in 2016

Extra-Curricular Activities

- Teach Students
- Work For Better Education
- Do Competitive Programming & Solved About 410+ Problems on various OJ
